An introduction to ODI

Who we are

ODI is an independent, global think tank, working for a sustainable and peaceful world in which every person thrives. We harness the power of **evidence** and **ideas** through research and partnership to confront challenges, develop solutions and create **change**.

ODI has around 240 staff, two-thirds of whom are researchers with the remainder providing a range of communications and professional expertise.

What we do

- We undertake cutting-edge research and analysis to generate evidence, ideas and solutions.
- We act as trusted, expert advisers to those making change around the world.
- We bring people together to turn ideas into action.
- We communicate our work around the world to increase its reach and impact.

Our guiding principles

We are **independent** and trusted: established in 1960, ODI is non-partisan, non-profit and evidence-driven. Our independence is the cornerstone of our credibility. It allows us to develop fresh ideas, challenge orthodoxies and take the risks we need to succeed.

At a time when the world is faced with complex dilemmas, **innovation** will be essential to finding, testing and scaling bold ideas and solutions. We will be increasingly innovative in the ways in which we bring people together, communicate ideas and increase our influence.

We are a **global** organisation, with staff, partners and ODI fellows in 50 countries around the world. The changes we seek require local knowledge, new relationships and perspectives, and credibility with decision-makers at both the national and international levels. We will therefore strive to broaden where we work in the world, as well deepen and strengthen our links with who we work with, especially at country level.

ODI exists to have real **impact** for those who need it most. This is at the centre of our thinking about what to do, where to go and how we measure our success.
Our work

Our work addresses four key global challenges, and explores the tools and approaches needed to enable progress and address risks.

Our values

Independence
Our work is independent from our funders. Staff are able to challenge donor thinking and policy and the wider development consensus.

High quality
We ensure best practice, innovative approaches and continuous improvement in our research, policy advice and public affairs.

Fairness, diversity and equality
We treat all staff and partners fairly and with respect.

Working together
We continuously try to foster better relationships throughout the organisation. We believe that by working together in a supportive environment, we will achieve more and have greater impact.

Transparency and accountability
We report openly on our use of public funds, and fully communicate our work to our donors, research subjects and partners.

Sustainability
We use resources in a sustainable way, conscious of our impact on the environment.
