SOUTHERN AFRICA DROUGHT EVALUATION
Country Report: Zimbabwe

HIGHLIGHTS

I. Background
   A. Country Overview
   B. History of Drought Emergencies
   C. The 1991/92 Emergency
   D. The Country's Ability to Withstand and Manage the 1991/92 Emergency

II. Design of the Response to the Drought
   A. Recognition of the Problem
   B. Identification of Vulnerable Groups
   C. Transport Logistics
   D. Resources Mobilisation

III. Implementation of the Response
   A. Government of Zimbabwe
   B. Multilateral Organizations
   C. Non-Governmental Organizations (NGOs)
   D. Regional Logistics Management
   E. Monitoring and Evaluation

IV. Outcomes
   A. Effectiveness of the Response
   B. Direct Impact on Beneficiaries
   C. Transition from Relief to Recovery Programs
   D. Organization for future preparedness
   E. Longer Term Planning

V. Special Issues
   A. Differing but Complementary Uses for funds appropriated for Disaster and for Development
   B. Relation of Drought Response to Structural Adjustment
   C. Food Security and the Optimum Magnitude of a National Food Reserve

VI Conclusions
   A. Attention to Early Warning
   B. Priority Attention to Logistical Arrangements
   C. Modification of Usual Procurement Procedures
   D. Presence of Experienced Personnel
   E. Level of Authority of Designated Drought Coordinating bodies
   F. Recognition and Use of Local Circumstances and Capabilities
   G. Relative Operational Effectiveness of Decentralised Structures
   H. Existence of Household Coping Mechanisms
   I. Duplication of Effort by Donor Headquarters Agencies, Donor field Staff and Country Agencies
   J. Difficulties in Establishing Registers of Needy Persons
   K. Difficulties in establishing Food for Work Programs

VII. Recommendations
A. To Promote Rapid Response 50
   1. Attention to Early warnings 50
   2. Assignment of Experienced and Capable Personnel 50
   3. Coordination of Needs Assessments. 51
B. To Promote Efficiency and Effectiveness. 51
   1. Adequate Staffing and Operational Resources. 51
   2. Logistical Planning and Coordination 51
   3. Decentralization 51
   4. Prompt Reimbursement by U.S. Agencies 51
C. To Promote preparedness through Development 52
   1. Improved Methods of Targeting Needy Communities and Households 52
   2. Linkages Between response to Disaster and Structural Adjustment 53
   3. Distinction between Preparedness and Development Activities 53

VIII. Lessons Learned 54

Annexes:
A. Chronology
B. Map and description of Transportation Corridors.
C. U.S. Assistance to Zimbabwe
D. Sources Consulted
E. Statement of Work
